

Linear Rubbing and Alcohol Abraser (large work table)

BGD 525

Product Description

Our Linear Rubbing And Alcohol Abrasers are versatile devices that can perform many types of linear abrasion rub and alcohol tests by attaching the required accessories and weights, either dry or wet. The wet rub test requires a liquid dispenser with a dripping control knob.

These Linear Rubbing And Alcohol Abrasers have been developed according to various international standards, such as the crocking test, the eraser test, as well as the liquid/solvent rub test, making them multifunctional rubbing machines.
